A DEMOCRATIC OPINION.

A Sensible View of the Real Value o the Philippine Islands

Santa Barbara Press: "The Philadelphia Record," belonging to the reasonable, rather than the hysterical class of Democratic journals, has taken a sensible view of the Philippine ques tion from the beginning. The "Record" believes the people of the United States capable of providing a government for the tribes of the Philippines that will impressive. The candidates for degrees afford them every liberty and protection, and still give this country a valuable acquisition-valuable not only in and guests of honor, marched in long its material self, but as an opening to the immense trade of the great continent beyond.

Commenting upon the reported discovery of extensive gold deposits in the interion of Luzon, the "Record" says:

"Readers of any life of Nelson will recall his interest in the Spanish vessels which carried treasure from the Philipthe most distinguished student of the litive methods of that time gold enough was mined to make of those islands the President Wheeler dwelt upon the richest possession in Spain. No modern income. The annual income, exclusive It was the deliberate policy of the Spanversity has five dollars of income for enrich or educate them was regarded every one that the University of Cali- as the surest means to promote their besides the personal gains of the Span-Mrs. Hearst made commencement ish officers at Manila. ARE FIGHTING FOR WATER The Southern Pacific Exhibit In Paris

Vries, Charles M. Belshaw, H. G. W. Dinkle- Colorado and Kansas Interests Clash.

Hydrographer F. H. Newell of the Geological Survey Talks Interestingly.

After years of threatening, the Supreme Court of the United States is to be asked to decide the case of Kansas against Colorado in the matter of the flows through some thirteen counties, forming a valley of 2,500,000 acres, almost as rich as the valley of the Nile. The claim made is that Colorado has diverted so much of the water of the Buildings, and is putting up a large

Commenting upon this litigation be-

ween the two states, Mr. F. H. Newell

ngs of the Geological Survey, made some interesting remarks. "That position grounds. trouble would sooner or later ensue,' Mr. Newell said, "between these two states over water rights, has been for a ty. Mr. Flicher, who is to assist Mr. with the conditions affecting them. A number of years ago the Geological family next week and come to Paris in Survey undertook some important sur- a few days afterward. veys of Colorado with a view to determining the perennial water supply of its rivers and its capacity for water storage. The rivers heading in Colo- Trocadero or at Vincennes. The Southrado furnish a vast water supply and the sites available for reservoiring the dried fruits, raisins, nuts, canned goods, flood waters of these streams are very timber, wines and many other things numerous. Our work enabled us to such sites, but there are hundreds of des Italiens." others, although right in the midst of the work af making these surveys, we were cut off through lack of appropri-

COSTLY LITIGATION. "Very expensive litigation is likely o result from this attempt of Kansas to compel Colorado to stop using water and I think when they get through with it, they will be just about where they are to-day. I cannot but think

that if this expense could be devoted to the continuation of the work upon which the government surveyors were engaged some years ago, a definite knowledge would be obtained as to the Pozo de Verona, thirty-five miles south "All travelers who have reached the possibilities of supplying both States "If the floods of the rivers flowi through these States were properly conserved in storage reservoirs there

> the lands at present under irrigation. and to vastly increase the irrigated area, whereas now there is a scant and unreliable supply even for that land which is said to be 'under irrigation.' "How would a proper distribution of water between the two States be effect-

ed, if all the water possible should be

would be enough water to supply all

"It would necessarily have to be through some third disinterested party acting as agent, and in whom both States would have confidence. I believe that in a general inter-State matter of this kind the federal governnent is the most logical and natural party to decide and administer such a case equitable and satisfactorily."

A GREAT WASTE OF MONEY. "There are other cases are there not, esides the Arkansas river which are likely to cause trouble and litigation?' "Dozens. This is simply one of nany. Litigation must necessarily ensue between Colorado and Nebraska, between Colorado and Wyoming: in fact until some general system such as be lawsuits and controversies between States wherever a river crosses from one State to another, which will involve an aggregate cost of enormous proportions, while the outcome cannot in any case be satisfactory. It appears to me to be very largely the old question of people who should be good neighbors, fighting over a dividing fence and wasting time and money enough to build a good bull-tight fence instead of getting together in the beginning and co-operating. If the irrigation interests in question would come together and bend their efforts towards getting the government to complete its half finished work of reservoir surveyings in that section, then the matter would be in such condition as to enable the parties in interest to proceed intilligently on a definite basis."

GUY E. MITCHELL. IRRIGATION APPROPRIATION. The irrigation appropriation of \$250,-000 which is asked for the use of the Geological Survey, would enable that bureau to vigorously prosecute its needful work of getting at the facts concerning the water possibilities of the arid region, and making surveys to show definitely where water can be stored, in what quantities and how much there will be to store. These are all subjects of vital interest to arid America and which Congress owes it to

GOOD FOR THE STATE.

(From the San Francisco Post.) Colonel Ben C. Truman, one of California's Commissioners to the Paris Exposition, has written an interesting letter on matters pertaining to his office to the Los Angeles "Western Graphic." As Commissioner Colonel Truman has had opportunities of viewing exhidits that few persons have enjoyed, and has had means of investigation that were denied others. His comparisons are of an instructive nature. In speaking of the exnibit which the Southern Pacific Company sent to the Exposition, he says it is of the finest quality and will do the State an immense amount of good.

Part of Colonel Truman's letter is as

"The Southern Pacific Company, under the management of W. H. Mills. diversions of the Arkansas river in the one of the most energetic as well as one latter State. This river in Kansas of the most brilliant men living, besides having a fine large salon on the Boulevard des Italiens for an exhibition room, has secured a lot near the Trocadero, right in the midst of the Colonies river as to seriously damage Kansas structure thereon, to be completed in few weeks.

"The Southern Pacific has received all of its exhibits, 144,000 pounds, in having charge of the irrigation survey- good shape, most all of which is already warehoused in this city or on the ex-

with holes in the health. None are so small but life "I've got a little touch of indigestion says one man. Another says, "my stomach feels a little out of sorts." It is just such little things which if neglected mean the total loss of health. The one medicine for disorders and diseases of the stomach and organs of digestion and nutrition is Dr. Pierce's Golden Medical Discovery. It increases the activity of the whole digestive and nutritive system, clears away obstructions, stops the loss the body sustains by

undigested or partly digested food, puri-fies the blood from the poisons resulting from imperfect digestion, and increases the secretions of the blood-making glands. "Golden Medical Discovery" has a wonderful record of cures of socalled "hopeless" cases.

Called "hopeless" cases.

Mr. Thos. H. Rudasill, of Henry, Lincoln Co., N. C., says: "After having suffered from inaction of the liver and all the troubles usually attending such a condition for over twenty years, and having deluged my system with floods of medicine from every available source, and being only temporarily benefited thereby, I applied to your institution for treatment You instructed me to take a course of Dr. Pierce's Golden Medical Discovery, which I am now doing. Although unable to strictly follow directions I have derived more actual benefit from the few bottles I have taken so far than from all the other remedies together.

Allow me to thank you for your prompt and courteous attention to my case as well as for the good received from it."

WHILE the Naval Appropriation bill was being discussed, Senator Lodge, in a short speech, gave what is generally considered as an official notice to Europe that this government is prepared to fight to maintain the Monroe Doctrine, if necessary. The Monroe Doctrine is by the way the one without the authorization of Congress important question upon which there is no political division in the Senate. During his speech, Senator Lodge incident- great loss to rebels. ally served notice on Germany that no dickering for the possession of the Danish West Indies would be tolerated by this government. It was not a jingo speech, but a plain statement of the situation. His speech made a sensation in diplomatic circles, and was cabled in full to all of the great European powers. The following extract from the speech need of reinforcements in Southern tains, Riverside and Sacramento being has pith in it: "My reason for desiring more ships and desiring them quickly is my belief that the safety of the U.S. depends upon the strength of our Navy. We do not need the Navy for the protection of our insular possessions. The danger lies in our great coast line and in the defense of the Monroe Doctrine in this Hemisphere." Of the relation of a stronger Navy to the Isthmian Canal, Mr. Lodge said: "We are about to enter upon the construction of an Isthmian voters must be had to entitle electors canal, and we must be the navai masters of the Carribean Sea. We must have a more powerful fleet than we have entitled to vote at the next primary and the city will unquestionable be today. The safety of the canal depends upon the strength of primary must be conducted under the our Navy. All admit that the canal ought to be built, and new registration act. It is the duty of the time is near when the work will be begun. If we are to ister at once, and see that they are protect the canal as well as our own coast, we must have a navy proportionately strong. I hope and believe that we shall have no war, but a great fleet is the best insurance of peace. However, we would be foolish, indeed, if we should close our eyes to the possibilities of the situation. We could never allow the Danish islands to pass into any other hand than ours. Any European nation which should undertake to take possession of those islands, right on the road to the Canal, and to make them a great naval station, would by that very act become an enemy of ours. We could submit to no such thing as that."

Santa Rosa Press-Democrat: Next summer 1,450 Cuban school teachers, at the invitation of Harvard University, will Petition of Mattie E. Anderson denied, and Frederick Wickers appointed guardian upon spend six weeks in Cambridge, Mass., for instruction in the English language. These teachers, two-thirds of whom are women, have recently been appointed to take charge of the schools in Cuba, and, as their salaries range from \$30 to \$75 a month, they could not hope to make this visit unaided. The authorities of Harvard have guaranteed \$70,000 for their use, the War Department taking them to Boston on Government transports and returning them from New York in the same way. No tuition fees will be charged. The plan is for the women to lodge in private houses by invitation and the men in college rooms placed at their service by students. They will also be instructed in geography by illustrated lectures and excursions, in the history of Spanish-American colonies, on American school, public libraries and a number of American industries. This is a most commendable undertaking, for the initiation of which credit is due to President

THAT shortage in the accounts of C. F. W. Neeley, who of the sufferer as he lay in the agonies of has been financial agent of the Cuban Postal System, has been greatly exaggerated. The full report of Col. Burton, of the Inspector General's Department of the army, who discovered the shortage, is in the hands of Secretary Root. It shows a shortage of \$36,000 for the current year and impli- taken advantage of the splendid opporcates nobody but Neeley, who is under arrest and will be others we suggest an early examination speedily tried and punished, if found guilty. That is the of goods and prices. whole story, which has been magnified out of all proportion to its importance by the democratic press for the purpose of Just received my spring and summer trying to make political capital. President McKinley has directed Gen. Wood to make a thorough investigation of all inspection. Come one, come all and Cuban financial accounts, and there will be no chance for any get your first pick. I am also making guilty man to escape exposure and punishment. Mr. A. L. at \$10, selling at \$7.50. Remember Lawshe, Deputy Auditor for the Post Office Department has weeks. been ordered to Cuba to take the place of the Auditor of Cuban postal accounts, who has been suspended during the investigation.

THE Democrats appear to be afraid to publicly express opinions about Towne's nomination for Vice-President by the Sioux City Populist Convention. On the quiet, however, the leaders of the party are saying many harsh things about Senators Butler and Pettigrew, who are charged with responsibility for Towne's nomination.

SENATOR SPOONER will probably have the distinguished honor of presenting President McKinley's name to the Philadelphia Convention. He will do justice to the subject and to the occasion. Among the prominent men who will make speeches seconding the nomination will be Governor Roosevelt, of New York.

The Attorney-General of the State nd the various District Attorneys of the counties are tussling with the question whether the coming election of school trustees must be held under the d or the new registration. If under he old registration, the old register ill have to be used; if under the new egistration, the time is already past ithin which to register for this parcular election. It is claimed, howver, that the provisions of the Smith w do not contemplate elections for 50 school trustees. If the old register is defunct and can not be used, and if the new law is not adapted to such elec-

Brought to the Hospital.

Last Monday about noon, Deputy

Constable Heffren brought a Chinaman from Ione and placed him in the County Hospital. Opium consumption was probably the disease with which the Chinaman was afflicted. The trip was ecessarily very slow and many times Heffren thought his charge was dead, but he managed to cling to life several lays after his entrance into the hospital. As he was being brought through Jackson, his right hand grasping the azy-back of the seat, his head thrown back and with mouth open gasping for breath, his groans indicated the intense suffering, and it was thought he

Last Saturday was a lively day at Plymouth, the basket picnic given ointly by the Native Daughters and ladies of the Catholic church meeting with more than ordinary success. In the morning a procession was formed and marched out to the picnic ground, which is an excellent location, headed by the Preston School Band.

After the literary exercises in the morning and lunch had been had, the ports of the day commenced, the chief feature being the game of baseball between the Amador City and Jackson nines. It is said to have been the poorest game ever played in this county. At any rate the Jackson club met with an overwhelming defeat. The result of this game causes consid erable comment on the game to be Italian pienic.

A dance was given in the and was thoroughly enjoyed by par-

Dividends of the Argonaut and Gwin Mines.

Gold Mining In Tuolumne County Is Still Up to the Standard. The Jumper Mine.

AMADOR COUNTY.

Argonaut-Jackson.

Work at the Argonaut goes on as usual nothing new taking place. The Argonaut paid in dividends for the latter half of April and the first half of

May, \$10,000. Gwin-Calaveras County The Gwin mine still holds its own and prospects become brighter as work

clared dividends to the amount of \$5,000.

South Spring Hid-Amador. Supt. John R. Tregloan is preparing for extensive operations in the Medium mine, of the South Spring Hill group, Cleaning and repairing the shaft is in progress. The mill is also being repaired, ten stamps being put in working condition to crush rock from the

Lincoln mine near Sutter Creek Keystone-Amador. Supt. W. A. Pritchard pushes his work at the Keystone with marked success. The mill keeps forty stamps

work is in progress.

dropping, and in the mine the usual

Bunker Hill-Amador Under Supt. Downs the Bunker Hill mine is fast coming to the front. Work in every department gives color to the expectations of the stockholders.

Original Amador-Amador.

The Little Amador or Original Amador mine is still undeveloped. No work has been done on this property for several years, but it is hinted that it is probable that the Bunker Hill company will purchase this property upon the more extensive development of the Bunker Hill. This is known to be good property and is situated on the southeast side of the hill upon which is located the Bunker Hill, and in all probabilities both properties produce the same grade ore.

Belmont-West Point. Supt. McKelvey of the Belmont was in Jackson this week. His property is meeting all expectations.

East Central Eureka-Sutter

Last week a new company was incorporated which will probably extensively work this property. The property is located on the Toman ranch, east of

CALAVERAS COUNTY.

Prospect: The new pump for the Kentucky mine near the Kentucky House has arrived on the grounds, and Mr. Sceifert is making arrangements to have it put in position at once. As soon as the pump is placed, work will

fully developing the property. The old Shear mine on Central Hill, better known as the Lloyd mine, has recently been bonded to Don Palmer, who formerly successfully operated the Chili Hill mine. Work will commence within sixty days, and there is no doubt but that the mine will prove a good paying proposition. The Central Hill group of mines have all been rich needs is a little money to open them

E. C. Stanley, formerly of Robinson's Ferry, where he disposed of some valuable mining property, is now living mining his chief business. Last Saturday he was in San Andreas in the interest of the Box mine, which is a conat Hobson. There is a good prospect and the compressors by steam. that this property will soon be opened, and there is little doubt but that it will prove as productive as the Pine Log. All it needs is sufficient money to open It properly. The ledge is the same as the Pine Log and can be traced as plainly as a village street. San Francisco parties are looking after the mine and a bond is likely to be given as soon as the terms are satisfactorily ar-

ranged. The Ford Mining Company will start their ten-stamp mill to crushing rock from the mine in a short time. Arrangements are being made with the Standard Electric Company for power, and as soon as they can get ready the stamps will begin to drop, probably within a week. The rock that is being taken out now looks very promising, and extensive tests will be made on ore from different parts of the mine. The officers of the company seem to be very giving the enlarged hall a neat and much encouraged over the recent de-

velopments in the mine. Citizen: A large amount of iron pipe has been passing through town lately for the Sheep Ranch mine. A large number of men are employed there and

all is moving along nicely. The Goldwin mine of Tuolumne county is having a large amount of machinery made at Altaville for the property. Vast improvements, including a

ten-stamp mill are contemplated. Chronicle: The French Hill tunnel near town, which for the past nine or ten months has been driven ahead, under the management of J. E. Burton with a view to tap the quartz ledge that passes through! French Hill, is completed, the ledge having been struck Thursday last. The formation through which this tunnel was driven. a depth of 480 feet, was very hard and the work was necessarily slow. The calculations were found to be about correct as the ledge was struck within

posed to be. The vein at the point enountered is about five feet in width, with well defined walls, and shows a good prospect in free gold. Further exploration will be necessary to determine the value of the find, but at present everything looks very favor-

The Lightner Mining company of Angels Camp is using a diamond drill to tap the old works of the Fox mine, TEN STAMPS TO BE USED AT THE FORD MINE which are filled with water. This water, when the works are tapped, will be pumped out through the Lightner. This method was deemed expedient in order to guard against any probable accident from breaking into the old drifts or levels of the Fox mine. The Lightner company evidently does not believe in the theory that men are cheaper than the exercise of proper precautionary measures.

The crushing of eighty tons of ore from the Maloney mine, in the Giuffra mill, was finished last Tuesday and the batteries and plates were cleaned up. The result was 201 ounces of amalgam.

The San Pedro mine at Glencoe owned by C. A. Berry, was bonded last week to Mr. Hart for \$11,000, and the first payment of \$1000 was made. A progresses. Last month the Gwin denew hoist is to be erected at once and operations will be pushed forward as rapidly as possible.

at Jackson ville. The shaft at the Densmore has reached a depth of 400 feet, and things continue to look fine.

Gustave Michel has commence operating on his mine, near the Keltz. Returns from a small crushing of ore from the property are said to be quite the Pioneers. The parade marched

Nothing is really known as to the ime when the Santa Ysabel mine will esume operations. Rumors are in circulation that work will commence at once with No. 3 shaft as the center of in this case the wish is probably father to the thought.

At the recent meeting of the stocknolders of the Mazeppa Gold Mining Company in San Francisco the following directors were elected: D. R. Oliver J. P. Pryor, J. Fraser, W. G. Langdon and G. L. Bishop. The affairs of the company were reported in a promising condition, and H. M. Pense was re-elected superintendent.

The development work now being actively prosecuted on the Arrow mine situated about one and a half miles south of Soulsbyville, is showing exceedingly well. The ore carries a high percentage of good-grade sulphurets, and samples recently taken from the the Central Eureka. There is no shaft bottom of the shaft give as high as \$100 per ton in free gold. This mine is under bond to Charles Fair and Geo. Knight of San Francisco. George Dean is superintendent.

Independent: Work is being prosecuted steadily at the Golden Rule mine. This is one of the Jumper Syndicate's properties.

Another twenty stamps will soon be be resumed sinking the main shaft and added to the mill at the App mine, making a total capacity of 40 stamps. The mine is in a flourishing condition. At the Tarantula exploration work is in progress. They are engaged in sinking and cross-cutting. The property is operated by an English com-

pany The Jumper mine still continues to uphold its record as one of the banner mines of the State. Reserves of high ever since the early days, and all it grade ore are blocked out in the mine sufficient to enable it to be a steady producer for some time to come. handsome residence for the management is being added to the many surface improvements. The head office at Copperopolis, and is still making of the Jumper Syndicate, which were formerly in San Francisco, are now at the mine and are fitted up in first class style. The shaft is down 1200 tinuation of the famous Pine Log mine feet. The mill is run by electricity

Sunday School Picnic at Amador. To-morrow (Saturday) the annua Sunday School picnic of Amador City will take place. The Burke grounds have been selected for the occasion. After the usual procession "break ranks" will be the order, and then the rush for the grounds. The four primary classes will be taken to the grounds by wagons.

In the afternoon a well matched game of baseball will be played between the Amador City and Preston School nines. A good game is expected.

More Improvements Made.

There have been busy times at Love Hall this week, the conclusion of a series of improvements has been made in the shape of a new and substantial floor. The walls have been papered, cheerful appearance. The floor is of the best quality and adds to the pleasures of dancing.

Will Give a Dance.

The Jackson Baseball Club will give dance in Love Hall to-morrow (Saturday) evening for the benefit of the club. This will be the first dance on the new floor. A good time will evidently be had.

Episcopal Services.

Divine service will be held in Masonic Hall next Sunday evening, May 27th. by Rev. Wm. Tuson, Rector. All are cordially invited to attend the service. The service begins at 8 o'clock.

Plymouth.

A Dramatic Performance at Volcano School Exercises at Shenandoah Valley.

РLУМОИТН, Мау 23, 1900. The picnic which was held at the Plymouth Park last Saturday, May 19th, proved a financial success. The N. D. G. W., and the Catholic's rendered the following program for the

Street Parade, which was led by the Marshal of the Day, D. E. Burke, who was assisted by Miss Mabel Wheeler, mounted, behind whom the Preston School Band marched, then came the carriage containing the Chaplain of the Day, followed by the white float, which was drawn by four grey horses with T. C. Dugan, the well known stage driver holding the reins, it contained the May-queen, Miss Maggie Slavich, her attendances and the may-pole dancers. The next float drawn by four black horses, representing California, contained a boat within which stood Mrs. Callie Shields, dressed in yellow satin, and little May Wilds. The float was artistically decorated with vellow and from the top of the float white pigeons were suspended. The third, or Fireman's float, was decorated with blue and red, containing Miss Blanche Bennetts as the Fireman's queen and followed by the Firemen hauling the hose

cart. The remainder of the parade consisted of the several orders and the neatly and handsomely decorated carriages containing the N. D. G. W., and ent being among the victims. the Park, where the day's exercises were opened by a selection of the Band gether welcome. followed by a prayer by the Chaplain of the Day, Rev. C. HOW TO CATCH A COLD. The Various Ways In Which It May

Be Accomplished. The various ways in which a cold may be brought on are thus described by Dr. J. H. Kellogg: "A little knife blade of air blowing in through a crack in a window upon some part-of the body will chill that part, and the blood vessels of that region will become contracted, affecting somewhere in the interior of the body an area in reflex relation with this portion of the

surface of the body. "For instance, the blood vessels of the skin of the top of the shoulders and the chest are associated with the blood essels of the lungs, so that whatever happens to the blood vessels of the of the shoulders and chest happens also to the blood vessels of the guidance of a partner who might not fair sex, especially if at all up in years, ungs. If there is a contraction of the blood vessels of the back of the neck, there will be a contraction of the blood vessels of the nose and throat, and if there is a contraction of the blood vessels of the top of the shoulders and

followed by congestion "When one puts his hands into cold arrived. water for a few minutes, they are first pale and then red. This is reaction. longer the application and the more intense the degree of cold the greater will be the contraction and the congestion. So if the back of the neck ence of cold one is likely to have a cold in the nose and throat. If the shoulder blades and the tops of the shoulders are exposed, one is likely to take cold in the lungs and suffer from | gle. congestion of the lungs. If the cold is long continued, it may cause not only congestion, but an inflammation of

der may result if there has ever been a there or a weakness of the that organ."-Good Health.

BABY'S PRETTY CURLS. Pulled Them Off In a Car and Em-

barrassed Her Mamma. A well dressed woman with a beauti-

ful baby in her arms attracted the attention of all the passengers on a Germantown car. Every one was fascinated by the baby's pretty and smiling face and particularly by two golden curls which hung down her cheeks. After awhile the child became nerv-

ous and began to tug at one of the curls which protruded from her hood. The woman, presumably her mother, quickly stopped her, but a few moments later she looked out of the window. No sooner was her face turned than the child seized her bonnet with both hands and pulled it off. It offer- ny sack under his arm, and some iner little resistance, but to the astonishment of every one on the car the curls 'Appetite Bill,' had at last arrived. came with it, and the supposed golden He seemed to be looking for landhaired baby showed that in reality its | marks, and when he reached the big head was without the semblance of a post I saw him stop, scrutinize the

inspection of the other passengers. It at the house, half a mile farther on. was almost a minute before the woman turned around. When she saw what the baby had done, her face flushed, and without a word she picked up the child and walked sedately his gunny sack. out of the car. When last seen, she street with the baby tucked under her | nati.' arm like a sack of oats, but still holding tightly to the bonnet and cooing, Times.

Behind the Scenes.

"A good many people," said a veteran stage manager the other day, "have an idea that beyond the scenes of a stage there is great fun and hilarity and that actors have a jolly sort of time between their appearances before the audience. The fact is a military camp during times of inspection is no more sedate than is the rear of any well regulated stage when the public in front of the footlights is being entertained. The shifting of scenes and the proper execution of an intricate play require all the thought that can be given them. All the men and women have all they can do to properly perform their parts. If a manager is an easy going man, caring little for discipline, he soon gets to the end of his eareer. You may be sure there is no business that is carried on in a more businesslike way than is the playhouse, and when the fun is on in the front those behind the scenes are carefully watching to see that no hitch occurs and that every one is ready to do his part at the proper time and does it properly when the time comes."-

How to Dry Rubber Boots. rubber boots. In the sitting room there which a tramp was leaving a cipher ered every night with fine coal and a out of jail, and I infer that the pracfew shovelfuls of ashes, so that the tice is tolerably common. At any rate room never became quite cold. We it is a curious feature of tramp life was as dry as a bone next morning. The handlest thing to keep the boot leg open is a spring steel corset rib about 18 inches long by three-quarter inch in width.-Forest and Stream.

Out of Sight.

An English cotton buyer in Memphis was talking with the clerk of one of the hotels the other day when a com- to a dark gray color. They are creamercial traveler came up. "How you feeling, Bill?" said the clerk as he extended his hand. "Oh, I'm just out of sight," replied the drummer.

After the commercial man had been assigned his room the Englishman turned to the clerk and inquired what he meant by "out of sight." The clerk explained that he meant he was feeling fine, and the Englishman recorded it in his little book.

The next morning when he same down to breakfast the clerk, following his usual custom, asked how he felt. The Englishman thought it a good time to try some of his newly learned slang and, with the air of one who has solved a difficult problem, replied, "Oh, you kaun't see me at all!"-Memphis Scimitar.

Motion and Color. The relations between light and the eve are wonderful, and the rapidity of the vibrations of the atmosphere necessary to produce color sensations are amazing. To get the sensation of redness our eyes are affected 482,000,000 times in a second; of yellowness, 540,-000,000, and of violet, 707,000,000. So that the seven hued rainbow, whose firm and subtle flame is reared out of drops of water that are ever shifting, plays upon the human eye in a manner so astounding that the strongest mind might stagger beneath the awful revelation.-London Opinion.

Patrols on Russian Railroads.

The Transsiberian railroad is very closely guarded, the management feeling personally responsible for the people they carry on their trains. The road is divided into sections of one verst, or five-eighths of a mile. In a neat little log house, usually in a garden. live the guard and his people. The average family is a wife and five towheaded children. The houses were built by the company and evidently with a view to meeting the demands of increasing families. The guard or a member of his family must patrol his section night and day. He steps to the side of the track as the train approaches and after it has passed steps back into the middle of the track, holds a small green flag in the air, at night a lantern, and stands like a statue until the train has entered the next section. Several guards do duty in the heavy curves, and frequently they are only a few hundred feet apart.

Much of the track patrolling is done by women, who have proved fully as reliable as the men. The women are nearly always barefooted, and as they stand on the track holding the flag aloft, a Siberian breeze toying with their short skirts, they are fine subjects for a sculptor after a unique model.-Siberian Letter in Chicago Record.

Seeing and Knowing.

An eminent lord chief justice who was trying a right of way case had bewas proceeding to tell the jury that he my feyther towld I as he heard my grandfeyther say"-

"Stop!' cried the judge. "We can't have any hearsay evidence here." exclaimed Farmer Giles. Then how dost know who thy feyther was, 'cept by hearsay?"

After the laughter had subsided the judge said, "In courts of law we can

plied the farmer. "I ha' got a bile on the back of my neck, and I never seed 'un, but I be prepared to swear he's

there, dang 'un!' This second triumph on the part of the witness set in a torrent of hearsay evidence about the footpath, which obtained weight with the jury, albeit the judge told them it was not testimony of any value, and the farmer's party

Grandfather's Hymns. The Contributors' Club in The Atlan

tic gives some information concerning "grandfather's" hymns: "Imagine them and their good wives gathered in ling forth such 'spiritual songs' as the book preserves for us:

"Then, blooming friends, a long farewell; We're bound to heaven, but you to hell. Still God may hear us while we pray

And change you ere the burning day. "And, be it observed, this burning day' to them was something as definite as washing day. This was none of your vague purgatorial way stations, but as flery a pit of torment as the imagination can well conceive. Here is a glimpse of it:

'Hark, the shrill outcries of the guilty wretche Lively bright horror and amazing anguish Stare through their eyelids, while the living worm lies
Gnawing within them."

Doubling His Joy.

"Young man," said the girl's father, 'do you realize that in asking for my daughter's hand in marriage you are asking me to give up my only child?" "Excuse me, sir." replied the young man, "but you are evidently laboring under a misapprehension. I propose to come and live with you after we are married, and you will then have two

more could you ask?"-Chicago News. Folly of Extravagance. "Because I agree to undertake your defense," said the eminent criminal

children instead of one. Now, what

lawyer who had been called in, "you will have to be perfectly frank with me and tell me the whole truth. Did you embezzle the \$20,000 you are accused of having taken?" "Yes, sir," replied the accused man "I'll not attempt to conceal the fact

from you. I stole every cent of it." "How much of it have you still?" "It's all gone but \$10." "Young man," said the eminent lawyer, buttoning his overcoat about him

and putting on his gloves, "you'd better plead guilty and throw yourself on the mercy of the court." "I'll do it if you say so, sir. What are you going to charge me for the

"Ten dollars."-Chicago Tribune.

His View of It. "No, sur!" exclaimed Cassidy. "It's no aisy job t' be a millionaire." "Is it just crazy talk ye're makin?" asked Mulligan.

"No, sur; I mane it. Shure, if ye're a millionaire an don't give all yer money away they call ye a sthingy ould thafe. t' square yersel' wid the Lord. No, sur; I'd not be a millionaire fur a thousan' dollars!"-Philadelphia Press.

Easily Fixed. "Awful affair at our hotel this after-

noon. Cook got angry and cut the end of a waiter's nose off with a carving knife. But one of the guests fixed it up all right."

"He gave the waiter another tip."

THE BITER BITTEN.

A Trick That Didn't Work Out Just as Was Expected. There were three of them, and as they entered the German saloon on the corner the tall young man, who wore razzle dazzle clothes and posed as San "fast," remarked in an undertone to Francisco his companions that he would "show

them something good." They lined up at the bar, and the tall young man ordered three 5 cent without drinks. When these were disposed of, he laid down 10 cents on the bar, at change which the German proprietor remarked, "Nein; fifdeen." The tall young man repocketed the coin and thus addressed the German:

"I just gave you 10 cents, didn't I?" "Yah," responded the German. "Well, here's 10 cents. That makes 20, so you owe me 5," added the

on the bar.

young man, again depositing the dime

The German looked bewildered, but

placed the dime in the money drawer and handed the tall young man a half dollar, with the request that he deduct therefrom the 5 cents due him. The tall young man had just the correct change, 45 cents, left in his pocket. This he promptly handed to the German and received the half dollar. Then the three companions repaired to the street and indulged in a mighty laugh, while the tall young man swelled up like a prize turkey on parade. Every thing went lovely until they parted company and the tall young man boarded a car for his home in the suburbs. Imagine his feelings when the conductor handed him back the 50 cents which he tendered in response to the request for fares with the information that the piece was "bad." It was all the money he had,

and he could not persuade the con-

ductor to trust him, so he was eject-

ed at the next corner and had to walk

the remaining five miles to his home .-

Only Accomplished, It Is Said. by the The popular theory that animals can be taught tricks by firmness and kindness is a grim error, according to a veteran circus man who has sent forth the dictum that no animal was ever trained to do anything unnatural except by punishment. If it knows hunger or pain will follow disobedience, it will-obey.

It takes the whip to break the colt to harness or saddle, but the end justifies the means, and the animal's intelligence when once it has learned its lesson does away with further use of the whip. But if a horse is taught tricks, such as one sees in a circus, the constant use of the whip is necessary, and the little pat on the neck the trainer gives the animal in public is not bestowed in private. There is never any let up in their training.

Trained dogs always appeal to women and children, for the little animals appear to thoroughly enjoy their work. But the barking and frisking are only had "knowed the path for 60 year, and the natural joy of the poor beasts at being let out of the cramped quarters where they stay when they are not in the ring. Moreover, they know the trainer does not whip them in public. There is scarcely a trick a trained dog does that he likes or that he will do at order unless punished. Willis Cobb was the first dog trainer to make a reputation, and when he was middle only be guided by what you have seen aged he abandoned his profession bewith your eyes and nothing more nor cause, he said, he had not the heart to Ledger and Daily Call, one year. go on making a living by whipping dogs.-Cleveland World.

Refrigerated Eggs. Eggs become unwholesome when kept in refrigerators. A fungus forms

in them which is easily found by the microscope, although it is not noticenble to the taste. The fungus constitutes a danger when we consider how many eggs are consumed by all classes of society, and people of delicate constitutions ought to be particularly careful that they eat fresh and not kept MISCELLANEOUS.
